"August 24, 1933

To the Honorable, the
Common Council of the
City of Plainfield

Gentlemen:

I am returning to you herewith, without my approval, the resolution which you adopted on August 21st, providing for the equipment, materials and appliances necessary for traffic lights at the intersection of Randolph Road and Park Avenue, based upon a bid or proposal, dated August 17, 1933, from the Crouse-Hinds Company of Syracuse, New York.

I disapprove of this resolution for the following reasons---

1 - You have not received a bid or proposal from the Crouse-Hinds Company for the proper equipment for traffic lights at the corner of Randolph Road and Park Avenue. The proper equipment for traffic lights at this intersection requires one (1) three-way light at the southwesterly corner of the intersection and one (1) two-way light at the southwesterly corner, and one (1) four-way light at the northeasterly corner of the intersection, all of which should be adjustable.

2 - I understand it was contemplated by you to use the equipment which had been intended, in the proposal made by the Crouse-Hinds Company, for use at the intersection of Front and Grove Streets, which equipment consisted of - two (2) three-way lights of solid type. You will understand from the above that this could not be done.

I am entirely in favor of having traffic lights installed at the intersection of Randolph Road and Park Avenue but cannot approve of the resolution of August 21st, because the proper equipment is not contemplated under that resolution.

Trusting that you will sustain this disapproval and arrange to obtain bids on the proper equipment, I am

Respectfully yours,

(Signed) C. Benson Wigton
Mayor"

COMMON COUNCIL

Regular meeting of the Common Council was held this evening in the Council Chambers.

Present: Councilmen Abrams, Alber, Davidson, Harris, Miner, Satterfield, Scott, Stiglitz, Strong, and President Sachar.
Absent: Councilman Davis.

Minutes of the meeting of October 16, 1933, were read and approved.

Councilman Harris moved the regular order of business be suspended for the purpose of reading and considering charges against Louis Merrill, police officer of the City of Plainfield. So ordered.

The Clerk read Notice of Hearing served on Officer Merrill, and Complaint of the Chief of Police, dated October 18, 1933, charging Officer Merrill with dereliction of duty and violation of Rule 2, subdivisions 5, 15 and 17 of the Rules and Regulations in that he used unnecessary violence in making an arrest, by falsely testifying before the Board of Police, and in not patrolling his post properly, and reported that the complaint had been filed in his office and proceedings thereon referred to the Common Council.

The Clerk then presented return of Charles A. Flynn, Chief of Police, showing that notice was served upon Officer Merrill on Saturday, October 21, 1933, when hearing on said complaint and plea would be had.

The Chair then summoned Officer Merrill, who was represented by Reynold C. Marra.

William Newcorn Esquire, Corporation Counsel, who took charge of the case on the part of the City, moved the charge for violation of Rule 2, subdivision 5 be dismissed.

Councilman Harris moved the motion be adopted, same being seconded by Councilman Stiglitz, and unanimously adopted.

The Chair then called upon Officer Merrill to plead. Mr. Marra, Counsel for Officer Merrill, pleaded "Guilty".

Councilman Harris thereupon offered the following resolution, accepting the plea of guilty, and fixing punishment, and moved its adoption:

5NCFU

WHEREAS, Charles A. Flynn, Chief of Police, pursuant to instructions of the Board of Police of the Inhabitants of the City of Plainfield, filed a complaint with the Common Council charging Patrolman Louis Merrill with violating Rule 2, subdivisions 5, 15 and 17 of the rules and regulations adopted by the Common Council for the governing of the Police Department; and fixed Monday evening, November 6th, 1933 at eight o'clock for the time of the hearing of said charges, a copy of the said complaint and notice of hearing having been duly served on the said Officer; and

WHEREAS, the said Officer appeared before the Common Council at the time and placed fixed in said notice and entered a plea of "guilty" to violating rule 2, subdivisions 15 and 17, and the Corporation Counsel having consented to withdraw the charge of violating subdivision 5 of said rule 2;

NOW THEREFORE, BE IT RESOLVED, that the plea of "guilty" to violation of rule 2, subdivisions 15 and 17 be and the same is hereby accepted by the Common Council;

BE IT FURTHER RESOLVED, that the sentence of the Common Council be that Patrolman Louis Merrill be suspended, without pay, from October 18th, 1933 to November 18th, 1933.

This motion was seconded by Councilman Alber, and adopted upon a call of the roll, all present voting in the affirmative.

Officer Merrill was then excused.

Councilman Davis assumed his seat at this time.

Councilman Harris moved the regular order of business be further suspended for the purpose of reading and considering charges against William L. Peterson, police officer of the City of Plainfield. So ordered.

Councilman Harris moved the Council confirm the action of the Board of Police in fixing the date for trial of Officer William L. Peterson for Monday, November 6, 1933, the motion being seconded by Councilman Stiglitz, and adopted, all present voting in the affirmative.

Councilman Harris offered the following resolution, authorizing the Counsel to the Corporation to employ a stenographer for the trial, and moved its adoption:

RESOLVED, That the Counsel to the Corporation be and is hereby authorized to employ a competent stenographer for the trial of the charges against William L. Peterson, and to advance any legal fees for witnesses, subpoenas or other expenses on behalf of the City.

This motion was seconded by Councilman Alber, and adopted upon a call of the roll, Councilmen Abrams, Alber, Davidson, Harris, Miner, Satterfield, Stiglitz, Strong, and President Sachar voting in the affirmative; Councilman Scott voting in the negative.

The resolution was then approved by his honor the Mayor, and the Clerk so reported to the Council.

Councilman Harris moved that William Newcorn, Esquire, Corporation Counsel, take charge of the case on the part of the City, the motion being seconded by Councilman Stiglitz, and adopted upon a call of the roll, Councilmen Abrams, Alber, Davidson, Harris, Miner, Satterfield, Stiglitz, Strong, and President Sachar voting in the affirmative; Councilman Scott voting in the negative.

The President asked if Officer Peterson was present. Mr. Joseph Moritz appeared, and stated he represented Officer Peterson - that Peterson was ill, and unable to appear this evening.

Mr. Moritz moved for an application for adjournment to the next meeting on the ground that he was retained on the case only this afternoon, and has not received, nor seen a copy of the charges, and is unable therefore, to offer the proper defense.

Mr. Augustus Dreier, former Counsel for Officer Peterson, addressed the Council, and explained his position in the matter, stating he was advised this afternoon, by Mrs. Peterson, that his services would no longer be required. Mr. Dreier thereupon withdrew.

Judge Newcorn opposed the motion, stating Officer Peterson received notice of hearing on October 26, 1933, and had eleven days in which to prepare his defense, while the ordinance requires only a three day notice. He then referred to the illness of Peterson, and suggested that the Council return to the regular order of business to allow the City Physician to visit and make an examination of Peterson as to his physical ability to attend this hearing.

Councilman Scott so moved, the motion being seconded by Councilman Harris, and unanimously adopted, and Dr. Raphael Yood, City Physician, was directed to examine Officer Peterson and make report to this body forthwith.

5NCFU

The Mayor's objections were then read, and are as follows:

"December 9, 1933

To the Honorable, the Common Council
of the City of Plainfield

Gentlemen:

I am returning to you herewith, without my approval, the resolution adopted by you on December 5th, providing for a Club license fee in the amount of

$300.00 annually

for such organizations as complied with the resolution adopted by the Common Council on December 4, 1933, and also subject to subsequent State legislation and also authorizing the Mayor and City Clerk to issue said licenses upon presentation of application together with the required fee.

I disapprove of this resolution for the following reasons:

1st. The State Act does not give us the power to designate, for Clubs, a license fee different in amount from that designated for any one else in connection with a permit to sell alcoholic beverages for consumption on the premises, all of which comes under the head of a "Plenary Retail Consumption" license.

2nd. Under date of December 4th you adopted a resolution making a license fee for consumption of liquor on the premises in the amount of

$1,000.00

This resolution was approved by me on December 5th. Therefore, a license fee of $300.00 for a Club license under the present Act, would be discriminatory and unconstitutional, inasmuch as a "Plenary Retail Consumption" license is the only license that can be issued to Clubs under the existing State law.

I am attaching hereto the opinion of our Corporation Counsel as given to me in his letter of December 7th, which substantiates the reasons I have already given for disapproving the resolution in question.

I sympathize entirely with your desire to permit Clubs to have a license at a lower fee than the fee charged for a license to an individual, a partnership or a corporation for a "Plenary Retail Consumption" license, which individual, partnership, or corporation is in business for his own benefit or profit and I believe that the Legislature should be requested to amend the existing law in order that municipalities may have the right to grant such licenses to Clubs for a lower fee. However, we must act in accordance with the law as it exists. I trust you will understand the reasons I have given for disapproving the resolution and that you will sustain me in this veto.

Respectfully submitted,

C. Benson Wigton,

Mayor"

REPORTS OR COMMUNICATIONS
FROM THE MAYOR OR OTHER CITY OFFICIALS

At the request of the President, Councilmen Miner and Davidson escorted his Honor, the Mayor, C. Benson Wigton, to the Chair, where he presented and read the following message:

"Mr. President and Gentlemen of the Common Council
of the City of Plainfield:

Again I take the pleasure and this opportunity to address you in person after an interim of one year.

I congratulate you most heartily for your record of constructive accomplishments during the year just ended. In addition, I thank you for your cooperative spirit in granting me the opportunity during the year to attend your deliberations and the meetings of your several committees, thereby bringing about a better understanding between the legislative and executive branches of our Municipal Government. This cooperation accounts for the entire consummation of the program which I had the privilege to suggest one year ago. In all this I believe our people, whom you and I have served, will most cordially concur.

A REVIEW OF THE YEAR:

Expenditures of the municipality were considerably reduced, which, with other reductions, resulted in the tax rate being lowered thirty-nine points. The other reductions include those made by the State and County, and the Board of Education. By establishing closer relations with our Board of Education in the preparation of the preliminary estimates of the School and municipal budgets, a better understanding was created, and the cooperation given reflected in reduced expenditures.

Economy has been practiced in all departments of the City and the efficiency of the personnel has been increased.

The Building Department has been merged with the Streets and Sewers Department, under the administration of the City Engineer, and is now more efficient.

There has been the closest cooperation with the Emergency Relief Administration with the result that there has been no better program in the entire State of New Jersey for handling relief and providing work for the unemployed than that of our City. Effective efforts throughout the year by various organizations and the methods used, such as the "Renovizing Campaign", have aided in this work. The Civil Works Administration through the very capable organization of our Director of Emergency Relief, is now giving employment on a cash basis to 900 men on projects beneficial to the city.

Our water rates have been reduced to the extent of eliminating the ten percent surcharge, by your efforts.

A new Zoning Ordinance has been adopted as an improvement over the old one which had been in existence since 1923.

Moving Picture Theatres are now paying license fees based upon the seating capacity, which is equitable, and which bring more revenue to the City.

The four Wards of the City have been redistricted thereby relieving the former congested districts and complying with the requirements of the Election Law of the State.

A duly appointed committee is working on the revision of our Building Code.

Our financial condition has been sound. All our obligations have been met, and our municipal credit is strong.

Such, gentlemen, are the high spots of our activities during the past year.

• • • • • •

The New Year 1934 brings us new problems to solve in addition to the necessity of properly solving those which are always with us.

Permit me therefore to bring the following to your attention:

MAINTAINING OUR HIGH CREDIT AND SOUND FINANCIAL CONDITION:

Plainfield enjoys the enviable reputation among municipalities of being in a sound financial condition, and holding a high municipal credit rating. We are in this condition only as a result of wise and conservative handling of our finances over a long period of years. We can only remain in this condition by being continually on our guard, recognizing conditions as they are, and keeping our expenditures within our ability to pay.

It is apparent from the tentative County Budget that Plainfield's share of the County Tax may be consid-

5NCFU

erably increased for the year 1934; that the amount to be raised for the Board of Education by local taxation may also be greatly increased on account of a smaller allotment from the State due to litigation with the Railroad Companies; that a greater amount will have to be placed in our budget on account of large expenditures for emergency relief during the past year; that the assessed valuations of the City have been reduced by one million, seven hundred thousand dollars, and that all these factors are beyond our control and tend to increase the tax rate over last year.

Therefore, realizing the necessity of lightening as much as possible the burden of taxation, I recommend the following:

1st - A continuation during the year of the existing reduced salaries of our City employees;

2nd - Incurring only expenditures necessary for satisfactory and efficient operation of the various municipal departments, the emergency relief, the debt service and mandatory requirements.

3rd - The sale of Improvement Bonds, already authorized, as soon as the municipal bond market improves, in order to reduce our floating debt.

4th - That you continue to enforce the collection of all revenues, as provided by law.

5th - Perfection of title in connection with such tax title lien certificates, which in the judgement of the Tax Collector, will bring about redemption.

6th - A resolution urging the State Legislature to create revenue producing legislation which will, in effect, reduce the State Tax levied on Counties and Municipalities, and thereby cause a reduction of taxes on real estate; also, one urging the support of proposed legislation designed to strengthen and protect county and municipal credit.

POLICE AND FIRE DEPARTMENTS:

I congratulate the Chiefs of both of these departments, and the members thereof for the efficient manner in which their duties have been carried out during the past year. The record shows that our fire loss has been almost negligible, and that the very few instances of crime in our City have been swiftly detected and the perpetrators prosecuted.

The morale and discipline in both Departments are excellent, and I ask full cooperation of the Common Council in all efforts being made toward perfection of both.

There are now four less men in our Police Department than in December, 1932, as a result of two dismissals, and two having been retired on pension. I therefore recommend in the interest of efficiency and economy, and in lieu of filling these four places:-

1st - The installation of a two-way radio police communicating system at Police Headquarters, with five police cars equipped for the purpose, and that immediate application be made to the Federal Radio Commission for the necessary permit.

2nd - The employment of only two additional patrolmen.

The cost of this system will be fully compensated by eliminating from our budget the salaries of two patrolmen to fill the present vacancies of four, which otherwise it would be necessary to employ, and when adopted, the patrolling of the City will be more effectively done and crime and law infractions more swiftly and surely detected.

RECREATION COMMISSION:

The work performed by this Commission and its Director during the past year has been of great value to the welfare of our citizens, and especially so on account of the large number of unemployed. With a greatly reduced budget allowance, recreation was provided for more persons than in any previous year. I congratulate the Commission and its Director for their excellent work.

SMALL CLAIMS COURT:

I recommend consideration to the establishment of a Small Claims Court in Plainfield, as permitted by law. The experience of seven other municipalities in this section of the State indicate that such a court, run at a nominal expense, is a great benefit to their citizens and provides considerable revenue.

ITINERANT VENDOR'S ORDINANCE:

A new ordinance should be adopted giving proper protection to our merchants from the itinerant merchant or vendor. The existing ordinance on this subject does

5NCFU

not sufficiently protect our merchants, who are large taxpayers and a big asset to the City.

REVISED BUILDING CODE:

I urge the adoption of a new Building Code just as promptly as possible, after the Special Committee appointed by the 1933 Council has submitted their recommendations.

LIQUOR CONTROL:

On Tuesday, December 5, 1933, the 18th Amendment to the Constitution was repealed, thereby enabling the State of New Jersey to enact legislation known as Chapter 436 of the Laws of 1933, providing regulation and control of sale of alcoholic beverages within the State.

The City of Plainfield enacted regulations and fixed license fees as permitted under the State Act. Two classes of licenses only were permitted to be issued by the City - one permitting the sale of alcoholic beverages for consumption both on and off the premises, and the other only permitting sale in original containers for consumption off the premises.

The license fees were fixed by the City at $1000 and $500 per year for the respective classes.

The licensing power under the existing law for issuing licenses lies entirely within the Common Council.

On December 6th, the Council issued fourteen licenses of the first class, and thirteen of the second, and withheld action upon some applications which had been received.

I now desire to emphasize to you the great responsibility, which, under the law , you must carry in the granting of all licenses.

I recommend in the interests of our citizens as a whole, and in order that we may conform to the best traditions of our City;-

1st - The number of licenses permitted for sale and consumption of alcoholic beverages on the premises should be limited to a number not exceeding eighteen or commensurate with the number issued by Plainfield in pre-prohibition days, allowing for increase in population.

The real problem of regulation and control lies in this class.

2nd - The number of licenses permitting sale for consumption off the premises need not be limited, as the purchase of alcoholic beverages in containers for home consumption may be made by our citizens in many nearby communities, as well as our own. We therefore should issue licenses to all those in this class who properly qualify.

3rd - High license fees should be charged for both classes of licenses, thereby providing revenues to the City and aiding in limiting the number. The present fees of $1000 and $500 for the two respective classes seem to be reasonable.

4th - No licenses should be issued to anyone who may have had a bad Police record, or who does not qualify after a thorough investigation.

5th - Whereas existing licenses were, by nature of the circumstances, granted hurriedly and without thorough investigation by the 1933 Council, and whereas additional applications have been made, and others probably will be made during the next month, I recommend and urge that the Common Council make a thorough investigation of all persons now holding licenses, and all those who have applied or who may apply; that for this purpose the Common Council appoint a Committee composed of its own members, with instructions to proceed with the investigation, issue subpoena to compel the attendance of witnesses, examine witnesses under oath, all as provided in paragraph #32 of Chapter 436 of the New Jersey State Laws of 1933.

6th - The law must be strictly enforced and licenses should be promptly suspended and revoked for violations.

I also suggest that the Council urge our representatives in the Legislature to modify the present State Law so that License fees to Clubs (of the nature of fraternal organizations) may be less than fees charged to others who are in business for profit.

Also, so that a separate class of licenses may be permitted for the sale of beer and light wine only in the original containers for comsumption off the premises.

. . . . . .

Gentlemen - again I want to thank you for the cooperative spirit you have shown during the past year and for all that has been accomplished.

I congratulate the heads of all our departments, boards and commissions for their untiring and efficient efforts during 1933, and I take this occasion on behalf of the City, to express to them our grateful appreciation.

Now, Gentlemen, it is my prayer and my hope that, with the help and guidance of Almighty God, we may act together during the New Year for the best interests of our City, State and Nation.

I extend to you, and through you to all our citizens, my wish that health, happiness and good fortune may be with you throughout the year.

4. Method of Taking Up Bonds. The Bonds shall be taken up and paid for in blocks from time to time as funds are needed for the Project, or the entire issue may be taken up and paid for by the Government at one time, in the discretion of the Finance Division of the Federal Emergency Administration of Public Works (herein called the "Finance Division").

5. Amount of Bonds to be Taken Up. The Government shall be under no obligation to take up and pay for Bonds beyond the amount which, together with Other Funds, and the amount to be paid to the Borrower on account of the Grant as provided in this Agreement, shall be necessary, in the judgment of the Engineering Division of the Federal Emergency Administration of Public Works (herein called the "Engineering Division"), to complete the Project. Provided, however, that at the option of the Finance Division such special account or accounts may be secured by a surety bond or bonds which shall be in form, sufficiency and substance satisfactory to Counsel for the Government. Any balance or balances remaining unexpended in such special account or accounts after the completion of the Project and which are not required to meet unpaid obligations incurred in connection with the construction of the Project shall be paid into said interest and bond retirement fund, and, together with the accrued interest aforesaid, shall be used solely for the payment of the interest on and the principal of the Bonds, or said unexpended balance or balances may be used for the purchase of such of the Bonds as are then outstanding at a price, (exclusive of accrued interest), not exceeding the principal amount thereof. 7. Disbursement of Bond Proceeds and Grant. The Borrower will expend the funds in such special account or accounts only for such purposes as shall have been previously specified in certificates accompanying the requisitions for such funds filed with the Government and approved by Counsel for the Government, or such funds shall be used for purchasing Bonds as provided in this Agreement.

(a) Send to the Government three signed counter-parts of the Agreement and a certified copy of the resolution adopted by the Borrower pursuant to Paragraph I, PART TWO, hereof, together with certified extracts of the minutes pertaining to its

JAN 29 1934

adoption and any papers, certificates and other documents which may be requested by Counsel for the Government;

(b) Retain municipal bond counsel satisfactory to the Finance Division to assist the Borrower in the proceedings relative to the authorization, issuance and sale of the Bonds, and to give such legal opinions relative thereto as may be requested by Counsel for the Government;

(c) Submit to the Government plans, drawings, and specifications of the work and materials to be employed upon the Project; the latest data as to the expected cost of the Project; a statement as to when and how it is proposed to advertise for bids and to let contracts for the work; a statement as to when and how it is proposed to acquire the necessary lands, easements, franchises, and rights-of-way; an estimate as to the amount of money that will be needed at the time of the sale of the Bonds; and any other details or data that may be requested by the Engineering Division;

(d) Submit to the Government all such authorizations, permits, licenses and approvals from Federal, State county, municipal and other authorities as Counsel for the Government may deem advisable then to be obtained in connection with the Project or the Bonds;

(e) Take all the proceedings necessary for the authorization and issuance of the Bonds.

3. First Bond Requisition. As soon as the provisions of Paragraph 2, PART TWO, hereof, shall have been complied with to the satisfaction of Counsel for the Government, the Borrower will file with the Government a requisition requesting the Government to take up and pay for such amount of the Bonds as, together with Other Funds, will provide sufficient funds for the construction of the Project for a reasonable period (or, in the discretion of the Finance Division, a requisition to take up and pay for the entire amount thereof at one time), specifying the principal amount, serial numbers and maturities (which maturities shall be satisfactory to the Finance Division) of the Bonds of such block and the date when it is desired to complete the delivery thereof (which date shall not be earlier than ten days after the Government's receipt of such first Bond requisition, unless otherwise satisfactory to Counsel for the Government), the first Bond requisition to be accompanied by a complete transcript of all bond proceedings to date, together with such certificates, forms, opinions, letters, statements and other documents as may be requested by Counsel for the Government.

4. First Bond Payment. If the first Bond requisition and the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, then, subject to the

terms and conditions of this Agreement, upon reasonable notice to the Borrower, and within a reasonable time after the receipt by the Government of the first Bond requisition, the Government will arrange to take up and pay for such amount of the Bonds as, together with Other Funds, will provide, in the judgment of the Engineering Division, sufficient funds for the construction of the Project for a reasonable period, or, in the judgment of the Finance Division, the entire amount of the Bonds, the first Bond payment to be made at the Federal Reserve Bank of New York, New York, New York, (herein called the "Reserve Bank"), or at such other place or places as Counsel for the Government may designate, against delivery by the Borrower of such Bonds, (having all unmatured coupons attached), together with such documents as may be requested by and which shall be in form, sufficiency and substance as theretofore approved by Counsel for the Government.

5. Subsequent Bond Requisitions. Unless all of the Bonds shall have been previously delivered and paid for, from time to time after the first Bond payment, but not oftener than once a month, (unless otherwise satisfactory to the Engineering Divison,) the Borrower will file a requisition with the Government requesting the Government to take up and pay for an additional block of the Bonds of such amount, as, together with Other Funds, and such portion, if any, of the Grant, requested simultaneously with such Bond requisition, will provide sufficient funds for the construction of the Project for a reasonable period, specifying the principal amount, serial numbers and maturities, (which maturities shall be satisfactory to the Finance Division), of the Bonds included in such block and the date when it is desired to complete the delivery thereof, (which date shall be not earlier than ten days after the Government's receipt of such Bond requisition, unless otherwise satisfactory to Counsel for the Government), each Bond requisition to be accompanied by such documents as may be requested by Counsel for the Government.

6. Subsequent Bond Payments. If a Bond requisition and the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, then, subject to the terms and conditions of this Agreement, upon reasonable notice to the Borrower, and within a reasonable time after the receipt by the Government of such Bond requisition, the Government will arrange to take up and pay for such additional amount of the Bonds as, together with Other Funds, and such portion, if any, of the Grant, paid simultaneously with the payment for such amount of the Bonds, will provide, in the judgment of the Engineering Division, sufficient funds for the construction of the Project for a reasonable period, each Bond payment to be made at the Reserve Bank or at such other place or places as Counsel for the Government may designate, against delivery of such block of Bonds, (having all unmatured coupons attached), together with such documents as may be requested by and which shall be in form, sufficiency and substance as theretofore approved by Counsel for the Government.

7. Grant Requisitions. The Borrower may, with any bond requisition filed in accordance with the provisions of Paragraph 5, PART TWO, hereof (or at any time after the final block of Bonds shall have been delivered and paid for, but not oftener than once each week thereafter), file a requisition requesting the Government to make a payment to the Borrower on account of the Grant, each Grant requisition to be accomplished by such documents as may be requested by Counsel for the Government.

8. Grant Payments. If a Grant requisition and the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, then, subject to the terms and conditions of this Agreement, upon reasonable notice to the Borrower, and within a reasonable time after the receipt by the Government of such Grant requisition (but not earlier than ten days after the receipt thereof, unless otherwise satisfactory to Counsel for the Government), the Government will pay to the Borrower a sum of money, which, together with all previous Grant payments, and Other Funds, shall be equal in aggregate amount to 25 per centum of the cost of the labor and materials shown to have been employed upon the Project to a date not later than the date of such Grant requisition; provided, however, that such Grant payment, together with all previous Grant payments, Other Funds, and the amount paid for the Bonds shall not exceed in aggregate amount the total cost of the Project, and in no event shall such Grant payment, together with all previous Grant payments and Other Funds, exceed in aggregate amount the sum of $9,000.; each Grant payment to be made at the Reserve Bank or at such other place or places as Counsel for the Government may designate, against delivery by the Borrower of its receipt therefor.

9. Final Grant Requisition. Within a reasonable time after the Project has been completed and all costs incurred in connection therewith have been determined, the Borrower may file a requisition with the Government requesting the Government for the final portion of the Grant, the final Grant requisition to be accompanied by such documents as may be requested by Counsel for the Government.

10. Final Grant Payment. If the final Grant requisition and the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, then, subject to the terms and conditions of this Agreement, upon reasonable notice to the Borrower, and within a reasonable time after the receipt by the Government of the final Grant requisition (but not earlier than ten days after the receipt thereof, unless otherwise satisfactory to Counsel for the Government), the Government will pay to the Borrower a sum of money, which, together with all previous Grant payments, and Other Funds, shall be equal in aggregate amount to 30 per centum of the cost of the labor and materials employed upon the Project provided, however, that the final Grant payment, together with all previous Grant payments, Other Funds, and the amount paid for the Bonds shall not exceed in aggregate amount the total cost of the Project, and in no event shall the final Grant payment, together with all previous Grant payments and Other Funds, exceed in aggregate amount the sum of $9,000.; the final Grant payment to be

JAN 29 1934

made at the Reserve Bank or at such other place or places as Counsel for the Government may designate, against delivery by the Borrower of its receipt therefor.

11. Cancellation of Bonds. In the event that $9,000. shall be less than 30 per centum of the cost of the labor and materials employed upon the Project, and if, within a reasonable time after the completion of the Project, the Borrower shall have filed with the Government the final Grant requisition, and if the documents accompanying the same are satisfactory in form, sufficiency and substance to Counsel for the Government, the Government will cancel, in so far as possible, and in such order as may be satisfactory to the Finance Division, Bonds and/or coupons in an aggregate amount equal to the difference between the aggregate amount of all Grant payments together with Other Funds, and 30 per centum of the cost of the labor and materials employed upon the Project; and for such reasonable time and to this end, the Government will hold Bonds in such amount as may be necessary to effectuate the purpose and intent of this Paragraph, unless payment of such difference shall have been otherwise provided for by the Government.

(c) Wages.

(1) All employees shall be paid just and reasonable wages which shall be compensation sufficient to provide, for the hours of labor as limited, a standard of living in decency and confort;

(2) All contracts and subcontracts shall further prescribe such minimum wage rates for skilled and unskilled labor as may be determined by the Government and shall be subject to all rules and regulations which the Government may promulgate in connection therewith. Such minimum rates, if any, shall also be stated in all proposals of bids submitted including those of subcontractors; and a clearly legible statement of all wage rates to be paid the several classes of labor employed on the work shall be posted in a prominent and easily accessible place at the site of the work. All contractors shall keep a true and accurate record of the hours worked by and the wages paid to each employee and shall furnish the Government with sworn statements thereof on demand.

(3) All employees shall be paid in full not less often than once each week and in lawful money of the United States of America in the full amount accrued to each individual at the time of closing of the payroll which shall be at the latest date practicable prior to the date of payment, and there shall be no deductions on account of goods purchased, rent, or other obligations, but such obligations shall be subject to collection only by legal process.

(d) Labor Preferences. Preference shall be given, where they are qualified, to ex-service men with dependents, and then in the following order:

5NCFU

local employment agencies but shall be secured in the customary ways through recognized union locals. In the event, however, that qualified workers are not furnished by the union locals within 48 hours (Sundays and holidays excluded) after request is filed by the employer, such labor may be chosen from lists of qualified workers submitted by local employment agencies designated by the United States Employment Service. In the selection of workers from lists prepared by such employment agencies and union locals, the labor preferences provided in Sub-Paragraph (d) supra, shall be observed in accordance with such rules and regulations as the Government may prescribe.

(f) Human Labor. In accordance with such rules and regulations as the Government may prescribe, the maximum of human labor shall be used in lieu of machinery wherever practicable and consistent with sound economy and public advantage; and to the extent that the work may be accomplished at no greater expense by human labor than by the use of machinery, and labor of requisite qualifications is available, such human labor shall be employed.

(g) Accident Prevention. Every person who performs the work of a laborer or of a mechanic on the Project, or any part thereof, shall be entitled to the benefits of the labor and wage provisions hereof, regardless of any contractual relationship between the contractor or subcontractor and such laborer or mechanic. There shall be no discrimination in the selection of labor on the ground of race, creed or color.

(j) Bonding of Contracts. Construction contracts shall be supported by adequate surety or other bonds or security satisfactory to the Government for the protection of labor and material men employed on the Project or any part thereof.

So far as articles, materials, and supplies produced in the United States are concerned, only articles, materoa;s and supplies produced under codes of fair competition adopted pursuant to the provisions of Title I of the Act, or under the President's Reemployment Agreement, shall be used in work on the Project, except when the Government determines that this requirement is not in the public interest or that the consequent cost is unreasonable. So far as feasible and practicable, and subject to the above, preference shall be given to the use of locally produced materials if such use does not involve higher cost, inferior quality or insufficient quantity, subject to the determination of the Government; but there shall be no requirement providing price differentiations for or restricting the use of materials to those produced within the Nation or State.

(l) Inspection and Records. The Government, through its authorized agents, shall heve the right to inspect all work as it progresses and shall have access to all pay rolls, records of personnel, invoices of materials, and other data relevant to the performance of the contract.

The contractors shall also furnish to the Government the names and addresses of all subcontractors at the earliest date practicable.

(n) Compliance with Title I of the Act. All contractors and subcontractors must comply with the conditions prescribed in Sections 7 (a) (1) and 7 (a) (2) of Title I of the Act.

No contract shall be let to any contractor or subcontractor who has not signed and complied with the applicable approved code of fair competition adopted under Title I of the Act for the trade or industry or subdivision thereof concerned, or, if there be no such approved code, who has not signed and complied with the provisions of the President's Reemployment Agreement.

3. Termination for Breach. The Borrower will enforce compliance with all the provisions of this part of this Agreement, and, as to any work done by it in connection with the construction of the Project, will itself comply therewith. All construction contracts shall provide that if any such provisions are violated by any contractor or subcontractor, the Borrower may, with the approval of the Government, and shall at the request of the Government, terminate by written notice to the contractor or subcontractor the contract of such contractor or subcontractor, and have the right to take over the work and prosecute the same to completion by contract or otherwise and such contractor or subcontractor and his sureties shall be liable for any excess cost occasioned thereby and/or, if so

5NCFU

requested by the Government, the Borrower shall withhold from such contractor or subcontractor so much of the compensation due to him as may be necessary to pay to laborers or mechanics the difference between the rate of wages required by the contract and the rate of wages actually paid to the laborers and mechanics.

4. Force Labor. Provided, however, that if prices in the bids are excessive, the Borrower reserves the right, anything in this Agreement to the contrary notwithstanding, to apply to the Government for permission to do all or any part of the Project by day labor, upon such conditions as the Government may impose, with the understanding that all provisions in this Agreement, including those relating to labor, wages, hours and recruitment, shall be observed.

Except with the prior written consent of Counsel for the Government, no materials or equipment for the Project shall be purchased by the Borrower subject to any chattel mortgage or any conditional sale or title retention agreement.

Upon the completion of the Project the Borrower will furnish to the Government a certificate of the Borrower's engineers certifying to such completion, to the total cost of the Project and to such other matters as the Engineering Division may request, such certificate to be accompanied by such data as the Engineering Division may request.

3. Information. During the construction of the Project the Borrower will furnish to the Government all such information and data as the Engineering Division may request as to the construction, cost and progress of the work. The Borrower will furnish to the Government and to any purchaser from the Government of 25 per centum of the Bonds, such financial statements and other information and data relating to the Borrower and the Project as the Finance Division or any such purchaser from time to time may reasonably require.

Bonds or to make any Grant:

(a) Cost of Project. If the Engineering Division shall not be satisfied that the Borrower will be able to construct the Project within the cost estimated at the time when the Application was approved by the Government, such estimated cost being the amount of $43,000., unless, in the event that additional funds appear to the Engineering Division to be necessary in order to pay in full the cost of the construction of the Project, the Finance Division shall be satisfied that the Borrower will be able to obtain such funds, as needed, through additional borrowing or otherwise, in a manner satisfactory to Counsel for the Government;

(b) Compliance. If the Borrower shall not have completed, to the satisfaction of Counsel for the Government, with all the provisions contained or referred to in this Agreement and in the proceedings authorizing the issuance of the Bonds, theretofore to be complied with by the Borrower;

(c) Legal Matters. If Counsel for the Government shall not be satisfied as to all legal matters and proceedings affecting the Bonds, the security therefor or the Project;

(d) Representations. If any representation made by the Borrower in this Agreement or in the Application or in any supplement thereto or amendment thereof, or in any document submitted to the Government by the Borrower shall be found by Counsel for the Government to be incorrect or incomplete in any material respect;

(e) Financial Condition. If, in the judgment of the Finance Division, the financial condition of the Borrower shall have changed unfavorably in a material degree from its condition as theretofore represented to the Government.

5. Representations and Warranties. The Borrower represents and warrants as follows:

(a) Authorizations. All necessary authorizations, permits, licenses and approvals from Federal, State, county, municipal and other authorities in connection with the Project or the Bonds have been or will be obtained;

(b) Litigation. No litigation or other proceedings are now pending or threatened which might adversely effect the Bonds, the construction and operation of the Project, or the financial condition of the Borrower;

No fee or commission has been or will be paid by the Borrower or any of its officers, employees, agents or representatives, and no agreement to pay a fee or commission has been or will be entered into by or on behalf of the Borrower, or any of its officers, employees, agents or representatives, in order to secure the loan and/or Grant hereunder;

(e) Affirmation. 6. Indemnification. The Borrower will indemnify the Government and all purchasers of the Bonds from the Government against any loss or liability incurred by reason of any inaccuracy or incompleteness in any representation contained herein. In the event that there shall be any such inaccuracy or incompleteness, the Government shall be entitled (in addition to the above right of indemnification and any other right or remedy) to return any or all of the Bonds to the Borrower and recover the price paid therefor by the Government.

7. Use of Government's Name. Without the prior written consent of the Government, the Borrower will not refer to this Agreement or to any purchase by the Government of the Bonds as an inducement for the purchase of any securities (including Bonds repurchased from the Government) of the Borrower, and will not permit any purchaser from it of any such securities to do so.

8. Sale of Bonds by the Government. The Borrower will take all such steps as the Government may reasonably request to aid in the sale by the Government of any or all of the Bonds. Upon request, the Borrower will furnish to the Government or to any purchaser from the Government of 25 per centum of the Bonds, information for the preparation of a bond circular in customary form, signed by the proper official of the Borrower, containing such data as the Government or such purchaser may reasonably request concerning the Borrower and the Project.

No waiver by the Government of any such provision shall constitute a waiver thereof as applied to any subsequent obligation of the Borrower or the Government under this Agreement.

12. Agreement Not for the Benefit of Third Parties. This Agreement is not for the benefit of any person or corporation other than the parties hereto, their respective assigns or the successors of the Borrower, and neither the holders of the Bonds nor any other person or corporation, except the parties hereto, their respective assigns or the successors of the Borrower, shall have any rights or interest in or under this Agreement, except as expressly provided for herein.

13. Interest of Member of Congress. No members of or Delegate to the Congress of the United States of America shall be admitted to any share or part of this Agreement, or to any benefit to arise thereupon.

The Borrower further covenants that it will procure and furnish to the Government, as a condition precedent to the Government's obligations hereunder, a letter from the Governor of the State of New Jersey in form satisfactory to Counsel for the Government and expressing the covenant and agreement of said Governor to effectuate insofar as it is within his power the covenant

COMMON COUNCIL

A special Meeting of the Common Council was held this evening in the Council Chambers.

Present: Councilmen Beck, Claybrook, Davidson, Davis, Hughes, Miner, Quarles, Stiglitz, Strong, VanDeventer, and President Satterfield.

The Clerk read the request of three members of the Common Council for the special meeting, and the Call for the meeting as issued by the Clerk, which request and Call are as follows:

"February 7, 1934.

Mr. George Wean
City Clerk
Plainfield, N.J.

Dear Sir:

Whereas, under Article 7 of the Charter of the City of Plainfield, said article does state in part "That persons elected for members of the Common Council shall have the power to call special meetings at the request of any three members in writing addressed to the Clerk of said Council", we, the undersigned duly elected members of the Common Council of the Inhabitants of the City of Plainfield do request, that a special meeting of the Common Council be called, to meet in the Council Chambers, City Hall, Plainfield, New Jersey, on the evening of February 13th, 1934, at 8 o'clock, for the following purpose;

It is our sincere belief that the Local Budget as it stands can be further reduced and we feel that public opinion warrants such action. Under our existing laws the final approval of the Budget is set for February 25th, 1934, and as we do not meet again until February 19th, 1934, we would not have enough time to advertise any further reductions, and inasmuch that the laws demand that when any item of the Budget is reduced 10% or more, such change must be advertised

5NCFU

at least twice in a period of ten days. As it is, if we did decide to make a change on the 19th, we would be unable to effect it because of the time limit.

Trusting that you will carry out this request with all due expediency, we remain,

Respectfully yours,

(Signed) Raymond C. Beck
